Subject: Testimony for February 13, 2018 Energy Cmte Meeting

Since DTE forced the installation of their smart meter in September 2017, I have had nothing but trouble with my electric billing.

The last "normal" bill I had was from July 20127 for \$97.32. paid August 12th.

In Nov, they did not bill me. I printed a balance of my account from their website. I paid \$229.19 on Dec 6 trh. This amount was for Oct 24 th -Nov 27th.

Received a correction, I owed \$26.05??? paid that Jan18, 2018.

I followed my account on line. It showed 0.00 balance. I contacted Michigan Agency for Energy. DTE sent a letter Jan 25th saying I owed \$213.69 on Feb 13th.And everything was corrected.
Then sent a bill past due 350.31.????

These amounts are double what they were before the smart meter. No to mention inconsistent and confusing.

All this has been very frustrating. After the forced shut off and forced meter installation, There needs to be serious investigation.

Why can't we have our power deregulated??
